Reproductive Science Center of the San Francisco Bay Area Operating Room Nurse

Our practice environment is very innovative and exciting, patient satisfaction is excellent, as are our success rates! This is an opportunity to be involved with an extraordinarily committed and caring staff. Our center consists of several physicians specializing in infertility care and is one of the largest in vitro fertilization centers in California. To learn more about our practice please visit our website at www.rscbayarea.com

The Reproductive Science Center of the Bay Area seeks an energetic, team-oriented RN who is looking for work in our Operating Room. Our Operating Room Nurse positions may be full time, part time or per diem and are scheduled to include some weekend and holiday rotations as needed.

Reporting to the O.R. Supervisor, the RN duties will include:

Prepare patient for surgery including Admitting and Recovery
Care for Patients during surgical procedures including circulating & scrubbing
Other duties as assigned

Education and Experience:

Current CA License
BLS/ACLS a must
2 years of Operating room experience required
Great communication skills
Team player

Join our practice to help make a difference!
