

## **How to Talk to Your Partner's Doctor**

5 questions you should ask your partner's doctor (but might not think to ask)

---

1. How is cancer affecting my partner's health right now?
2. How quickly does my partner need to start treatment?
3. Will cancer or its treatment affect my partner's future fertility?
4. What fertility options are out there?
5. Can my partner have a child after his/her cancer?
